**Inspection**

**Type: ROUTINE INSPECTION**

**Date: MAR-08-2007**

**2.40 ( b ) ( 2 )**

**ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).**

Sec 2.40 Attending veterinarian and adequate veterinary care (dealers and exhibitors).

(b) Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include: (2) The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care;

One bottle of Dobutamine (250mg/20ml vial) (20ml vial) dated Jan 07: expired drug

These items potentially could harm the animals treated at the facility. Expiration dates and outdated material may make the items less effective or ineffective. Only current materials should be used on the animals for their well being.

The above item was corrected during inspection.

This was the first complete inspection. It was announced so all the responsible facility personnel could be present. This was to go over the regulations, record keeping and inspect the facility.

Future inspections will be unannounced
