FACILITIES, GENERAL.

(c) Storage. Supplies of food and bedding shall be stored in facilities which adequately protect such supplies against spoilage or deterioration and infestation or contamination by vermin. Food supplies shall be stored in containers with tightly fitting lids or covers or in the original containers as received from the commercial sources of supply. Refrigeration shall be provided for supplies of perishable food.

Mechanical equipment in the feed storage room had a hydraulic leak. There was hydraulic fluid over the central portion of the floor in this room. Contamination of bags of feed may occur when either chemicals or mechanical equipment is maintained in the same room as feed. All mechanical equipment must be stored separately from animal feed.
