Inspection

Type: ROUTINE INSPECTION

Date: AUG-08-2006

2.31 (c)(3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Section 2.31(c)(3) states "Institutional Animal Care and Use Committee (IACUC) IACUC Functions. With respect to activities involving animals, the IACUC, as an agent of the research facility, shall: prepare reports of its evaluations conducted as required by paragraphs (c)(1) and (2) of this section, and submit the reports to the Institutional Official of the research facility. The reports shall be reviewed and signed by a majority of the IACUC members and must include any minority views. The reports shall be updated at least once every six months upon completion of the required semiannual evaluations and shall be maintained by the research facility and made available to APHIS and to officials of funding Federal agencies for inspection and copying upon request. The reports must contain a description of the nature and extent of the research facility's adherence to this subchapter, must identify specifically any departures from the provisions of title 9, chapter I, subchapter A--Animal Welfare, and must state the reasons for each departure. The reports must distinguish significant deficiencies from minor deficiencies. If program or facility deficiencies are noted, the reports must contain a reasonable and specific plan and schedule with dates for correcting each deficiency."

The 3-10-06 program review and facility inspection was conducted in conjunction with the facility's AALAC inspection. An official report to the Institutional Official containing the above required information was not prepared and submitted. A report still needs to be written, signed by a majority of IACUC members and submitted to the Institutional Official. The report dated 9-12-05 noted a few deficiencies and did not include correction dates for the deficiencies. Future reports need to include correction dates for any deficiencies.

To be corrected by 10-10-06.
