**521 WEST INDUSTRIAL LAKE DRIVE
LINCOLN, NE 68528**

Site: 001

BENCHMARK BIOLABS, INC.

Inspection

Type: ROUTINE INSPECTION

Date: JUL-18-2006

2.31 (c) (1)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

IACUC Functions. With respect to activities involving animals, the IACUC, as an agent of the research facility, shall: (1) Review, at least once every six months, the research facility's program for humane care and use of animals, using title 9, chapter I, subchapter A- Animal Welfare, as a basis for evaluation.

1) The most recent facility inspection report and program review (1/06) does not contain a review of a protocol that was active at that time (BECL 0996).

Review of protocols involving animal activities is necessary to ensure the health and well-being of the animals.
Correct in future IACUC reviews.

3.131 (c)

SANITATION.

Housekeeping. Premises shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart.

1) The sinks in the utility rooms of buildings 208, 210, and 212 are noticeably stained and discolored and, as such, could pose a health risk to the animals.
Correct by 8/15/06.

2) The scale/squeeze shoot in building 212 has areas of rust on the moveable parts and the floor. In this condition it can no longer be thoroughly sanitized and should be repaired or replaced.
Correct by 8/15/06.
