**NATURA MANUFACTURING
INCORPORATED**

Customer ID: 19097
Certificate: 47-R-0027
Site: 001

2779 RADEMAKERS WAY
FREMONT, NE 68025

Inspection
Type: ROUTINE INSPECTION
Date: NOV-08-2005

3.1 (a)

HOUSING FACILITIES, GENERAL.

(a) Structure; construction. Housing facilities for dogs and cats must be designed and constructed so that they are structurally sound. They must be kept in good repair, and they must protect the animals from injury, contain the animals securely, and restrict other animals from entering.

Dog entry door in American Eskimo pen: Rubber gasket around the window is partially pulled off. Window could possibly come loose from door or dog could accidentally ingest rubber.

(Correction timeline for this item: Correct by 12-08-05)

3.11 (a) (3)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

3) Hard surfaces of primary enclosures and food and water receptacles must be sanitized on a regular basis...by means such as

(iii) Washing all soiled surfaces with appropriate detergent solutions and disinfectants, or by using a combination detergent/disinfectant product that accomplishes the same purpose, with a thorough cleaning of the surfaces to remove organic material, so as to remove all organic material and mineral buildup, and to provide sanitization followed by a clean water rinse.

Numerous dog doors have a brown residue which could be a combination of body oil, food residue, dirt, etc. This oily residue could possibly harbor bacteria, viruses, etc. This organic material must be cleaned away before proper sanitization can take place.

(Correction timeline for this noncompliant item: (Correct by November 22, 2005)
