Type: ROUTINE INSPECTION

Date: MAY-14-2007

209 KRESGE CENTER
TUSKEGEE, AL 36088

2.31 (d) (2)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

(d) IACUC review of activities involving animals.

(2) No member may participate in the IACUC review or approval of an activity in which that member has a conflicting interest (e.g., is personally involved in the activity), except to provide information requested by the IACUC, nor may a member who has a conflicting interest contribute to the constitution of a quorum.

***Protocol was approved on 04/28/2006. The project has since ended. In the absence of the chairperson, the co-chairperson reviewed and approved the protocol. The principal investigator of the protocol being reviewed is the spouse of the co-chairperson; therefore this represents a conflict of interest. The co-chairperson should not have been allowed to participate in the IACUC review and approval of this protocol. The IACUC shall review committee functions to insure that this does not occur. To be corrected at next months IACUC meeting.

3.25 (a)

FACILITIES, GENERAL.

(a) Structural strength. Indoor and outdoor housing facilities for guinea pigs or hamsters shall be structurally sound and shall be maintained in good repair, to protect the animals from injury, to contain the animals, and to restrict the entrance of other animals.

***The dressing area leading to the rodent facility has a water leak in the ceiling. Water was observed dripping into buckets placed on the floor. There was water damage around the lights. Animal caretakers must pass through this area to care for the animals. In the process they may become contaminated, or items they are carrying into the facility may become contaminated. The leak shall be repaired to protect the animals housed in the facility. Correct by July 30, 2007.
