Inspection

Type: ROUTINE INSPECTION

Date: NOV-20-2006

3.31 (a)

SANITATION.

(a) Cleaning and sanitation of primary enclosures. (1) Primary enclosures shall be cleaned and sanitized often enough to prevent an accumulation of excreta or debris:

The hamster enclosures are clean but have a buildup of scale which can not be removed by routine cleaning procedures. This scale buildup prevents proper sanitation . The scale needs to be removed or the enclosures with built up scale need to be replaced so they may be properly sanitized.
