Inspection Type: ROUTINE INSPECTION
Date: JAN-05-2007

2.33 (a) (1)

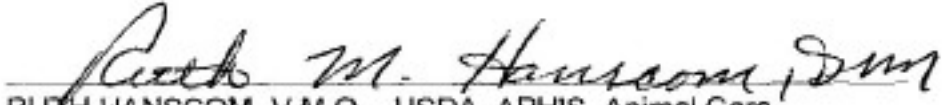

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

<<<< Each research facility shall have an attending veterinarian who shall provide adequate veterinary care to its animals in compliance with this section:

(1) Each research facility shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the research facility.>>>>

The facility has a new part-time Attending Veterinarian. The written Program of Veterinary Care has not been updated to reflect this, with review and approval by the new AV.

The registrant stated that this will be corrected by Jan. 12, 2007. The new AV will be consulted on revising the written PVC, with emergency contact information available to animal care personnel, and regularly scheduled visits by the AV to the facility.
