

**Do you buy "Easter" chicks?  
Does your church promote using  
live animals as trinkets?**

**Learn the horrible truth**

Thousands of days-old baby chicks are taken from their industrial incubators and shipped around the world to be sold as trinkets for Easter.

Easter is a celebration of resurrection and new life, of renewal and forgiveness...not abuse and death.

Thousands of chicks become sick, are injured or die in transit but because they are so "cheap" their deaths only matter as tax write-offs to the profiteers.

Most people have no idea how to take care of chicks so they will be happy and healthy, or even merely survive. Both children and adults squeeze or trample them to early deaths. Many die in stores and store window displays. Every year after Easter, vets are routinely deluged with sick and dying chicks.

Some eggs are injected with bright dyes so chicks will attract more buyers. As the chicks grow, they take on their natural color, thus making them less appealing to many people, more reason to discard them.

Chicks are living beings in search of their mothers. To sell them as Easter trinkets perpetuates the ungodly myth that they are industrialized products to be used and trashed. Let's teach our children compassion!

**Do you want to end this pain and suffering?**

**Treat ALL God's creatures with compassion and dignity...ANIMALS ARE NOT TRINKETS**
