It's Hunting Season, again - A Painful and Sorrowful Time for Animals and Animal Activists
God's Creatures Ministry believes that people are stewards(caretakers), not "masters" of God's creation and we are opposed to hunting. This fall in New Jersey, and throughout the United States, hunters will be going into the woods to kill animals. Particularly cruel hunting practices include bowhunting, in which razor tipped arrows inflict deep and painful wounds, and using muzzleloaders, which often causes animals a slow and painful death. Hunting destroys animal families and causes ecological disruption. Certainly God doesn't want this for Creation. Humanity must pursue peaceful, nonlethal methods to reduce conflicts with wildlife.

Thank You for Your Support

Thank you for supporting our work and for donating to our recent Founder's Birthday Fundraiser. Pictured here is Salty, a homeless cat that GCM members have been feeding for years. She has been trapped and is getting medical attention for her eye problems, and recent weight loss. We will keep you updated on her condition.

Helping Animals in Wildfires

GCM is happy to support the Napa Community Animal Response Team. NAPA-CART is hard at work rescuing, evacuating, sheltering, feeding and caring for all types of animals including; horses, cats, sheep, goats and chickens while the California wildfires continue to destroy over one million acres of land. Happily they have also been reuniting people and their animals when able. [Napa CART info](#)

Your support lets us continue helping animals
